SUMMARY

Highly skilled Angular - Java Developer with 1.5+ years of experience in creating efficient, scalable and user-friendly web applications. Adopt at collaborating with cross-functional teams to deliver high quality software solution.

- Experience in building **RESTful Microservices** using **Spring Boot**, **Spring MVC**, **Spring Data JPA**, and **Hibernate**.
- Hands-on experience in developing **interactive Single Page Applications (SPA)** using **Angular**, TypeScript, HTML, and CSS. Solid understanding of **Object-Oriented Programming (OOP)** concepts including **Inheritance**, **Polymorphism**, **Multithreading**, **Collections**, and **Exception Handling**.
- Experienced in **Microservices architecture**, API Gateway, Service Registry, and inter-service communication.
- Well-versed in **Agile Scrum methodology** with active involvement in all phases of the **Software Development Life Cycle (SDLC)**.
- Strong problem-solving skills with the ability to analyze requirements and implement efficient technical solutions.

PROFESSIONAL EXPERIENCE

Full Stack Developer: Capgemini

September 2024 – Present

- Collaborated with cross-functional teams to **design, develop, and deploy scalable web applications** using **Java**, **Spring Boot**, and **RESTful Microservices**, with a responsive front-end.
- Worked in an **Agile Scrum environment**, contributing to sprint planning, feature development, enhancements, **code refactoring**, and **defect resolution**.
- Followed **Spring Boot best practices** including **SOLID principles**, **layered architecture**, **dependency injection**, and **repository pattern** to build maintainable and loosely coupled systems.
- Developed and consumed **REST APIs**, handling **request validation**, **exception handling**, and **authorization** using Spring-based mechanisms.
- Applied strong knowledge of **Object-Oriented Programming concepts**, collections, and multithreading to solve complex business logic. Used **Git** for version control, participated in **code reviews**, and ensured adherence to quality guidelines

EDUCATION

SONA COLLEGE OF TECHNOLOGY

2020 – 2024

B.E Computer Science and Engineering, 9.26

BHARATHI MATRIC HR SEC SCHOOL

2019 – 2020

HSC : 84.66 %

BHARATHI MATRIC HR SEC SCHOOL

2017 – 2018

SSLC: 97.2 %

SKILLS

- | | | | |
|-----------------|--------------|--------------------------|-----------|
| ❖ Java | ❖ SpringBoot | ❖ SpringDataJPA, MVC,AOP | ❖ RESTAPI |
| ❖ Microservices | ❖ OracleDB | ❖ MySQL | ❖ Angular |
| ❖ TypeScript | ❖ Github | ❖ Rally | ❖ Agile |

PROJECTS

Helping Hands Care Center (HHCC) – Secure Digital Care Management System [LINK](#)

June 2024

- Developed a scalable web application for family, pet, and elderly care services with role-based access for users and admins.
- Implemented **JWT-based authentication and authorization** to secure user registration, login, and API access.
- Built features including OTP-based email verification, service scheduling (pick-up/drop-off), dashboards, and feedback management. Integrated **Stripe payment gateway** for secure online transactions.
- Designed the application with scalability in mind to support national and global expansion.

Hotel Management System

March 2024

- The Hotel Booking Management System enhances the reservation process by offering a user-friendly interface that allows customers to easily search for hotels, view room, availability and complete secure payments.
- Key features include real-time updates on room availability, multiple pricing options, robust user authentication for secure access, and straightforward booking modification and cancellation process.
- This system aims to streamline the entire booking experience, making it convenient and efficient for both guests and hotel operators.

COURSES & CERTIFICATIONS

AWS Certified Cloud Practitioner CLF-CO2, Azure Fundamentals (AZ-900) and Azure AI
